

Fast Track Course - to get the heart racing

It's not what you've got, it's the way that you do it!

Our aim at this College/Centre is to enable students to improve very quickly.

AND How! - Because you learn from the basics leaving nothing of importance out, thus achieving broad photographic skills and knowledge.

Practical lessons, demonstrations and interaction with the participants ensure that actions are performed correctly. You learn how to make images that are powerful, dynamic, emotional and sensitive; not what you see in newspapers, which are only records.

Memorable images are timeless because they affect the viewer in many ways, and the differences that light describes the scene implicitly, and the precise moment that subjects are caught by the shutter makes them extraordinary & unique. You will learn all the craft skills to achieve this.

After you've been, your level of ability is such that viewers of your work recognize that you can produce impressive photographs exhibiting consistent creative & technical competence.

What is so special about the Fast Track and this centre in learning photography?

a) You'll learn all encompassing techniques that can be applied to the camera and a myriad of subject matter. You will learn about lighting from the bottom to the top, so that you'll be able to do the best lighting methods to suit, wherever subject matter leads you. This includes all lighting, colour, size, quality, cost, need, and what, and why and when and how, and where & WHO!
