Photoshop & Wireless Transmission etc.

There are 5 Pages on the Art, Craft, & Technical Tutelage of Adobe Photoshop CS2 and later. As this website is continually changing, so will this section. There will be more than page 6 'About Wireless Transmission' early next year.

Contents browse either by - click/choose each line to see that page or by sequential access using the bottom right go-forward arrow.

- 1 Contents - this page
- 2 Getting in touch about your needs. Establishing your aim & target. Preparing for the course, and choosing images. Deciding if you'd like a 1-2-1 or in a group & [2 or 3 days]?
- 3 Examples of work that has to be done by Photoshop methods.
- 4 Examples of work done by students.
- 5 The Art & Craft of IMage Manipulation. (ACIMM)
- 6 About Wireless Transmission etc.
- 7 Wireless Transmission & Setting Up.
- 8 Transmission by cable from Studio to PC/MAC/& Portable Hard Drives.
- 9 Examples of Creative uses of WT & Timelapse etc.
- 10 Nikon Capture and its uses.
